What is Teeth Whitening?

A new study shows that an individual's smile is the most attractive part of personality. It expresses pleasure, happiness, and amusement. Likewise, people with yellow teeth are considered less attractive and often lose out on amazing opportunities in their lives.

Thanks to Dentistry – with the increased options for teeth enhancement, it has become a lot easier to restore whiter teeth and a brighter smile.

From LASER TREATMENT to ZOOM ADVANCED POWER INSTANT WHITENING, there are several different ways to whiten the teeth.

Read this guide to learn more about tooth whitening procedures, their cost structures, results, risks, and benefits.

Purpose:

Teeth Whitening in Dubai is a non-invasive, simple, and quick dental treatment. It is a process of changing the color of the outer surface layer of the teeth.

Benefits:

Professional [teeth whitening](#) will not only brighten the teeth, but you may also notice that your teeth are stronger and healthier than before. Other benefits include:

- Gives an added boost to confidence and self-esteem
- Helps you discover the real power of a beautiful smile
- Treatment can be customized to give you the accurate degree of whiteness you want
- It won't make your teeth sensitive or painful, provided that you have an expert cosmetic dentist performing the procedure

Results of Teeth Whitening Dubai:

Though there are no particular health benefits, it can have incredible cosmetic effects on the teeth. In most patients, it successfully smoothens and whitens the enamel of the teeth, providing an overall brighter and better smile.

You should know that the effects vary. However, when performed under the supervision of professional dentists patients get long-lasting, natural-looking, and safe results of Teeth Whitening in Dubai, Abu Dhabi & Sharjah.

Are You A Good Candidate?

Everyone's teeth are distinctive, so this dental treatment is not equally effective for all patients. Likewise, not all teeth can improve to the same level.

The best candidates for Teeth Whitening in Dubai are:

1. People who have healthy teeth without restorations e.g. bridges, implants, fillings, etc.
2. Those with tooth decay, cavities, and other oral health conditions are advised not to get this treatment
3. Men and women with discolored or darken teeth who wish to improve the enamel color by up to 8 degrees

Note: This option may not be right for pregnant and lactating women

How to Prepare for your Appointment:

Make your unattractive smile shine and give your confidence a boost. In order to ensure your treatment goes smoothly and you achieve the desired results, we would like to share some tips with you.

Following tips should be kept in mind before you schedule your whitening session:

- If you are prone to teeth sensitivity, please use desensitizing paste for at least a week before the treatment
- By using a shade guide, find out your goal shade
- If you have deep stains, veneer, etc. inform your dental professional about it

Treatment Options:

Let us help enhance your smile. At Dynamic clinic, a lot of dental treatments are available to provide you amazing teeth whitening results. Depending on your needs, you can choose the right approach.

The two most common techniques of [Teeth whitening in Dubai](#) are as follow:

Laser Teeth Whitening:

Overall, it can diminish the stains and brighten the color of teeth enamel without causing any damage.

- It involves using a concentrated bleaching gel on the teeth and then exposing it to laser light to heat it up.
- The laser activates the chemical in the gel, resulting in brighter, whiter teeth fast.
- It can be done in a short time, and painlessly.

Zoom Teeth Whitening:

Of all the bleaching treatments, none is more effective than Zoom whitening. It reverses teeth discoloration that may be caused due to smoking, poor oral hygiene, or the natural aging process.

- During this treatment, Hydrogen peroxide is used along with a specialized lamp that generates LED blue lights. The lights activate the gel and accelerate the bleaching process.
- However, it is important to note that, this treatment takes longer to deliver the desired results. In general, most patients are satisfied with the results after seven to nine applications.
- After getting stains off your teeth, you will be given supplemental take-home trays in order to ensure optimal results.

Best Doctor's for Teeth Whitening:

Dr. Michel Bou Chaaya

Dr Michel Bou Chaaya has been a valuable member of Dynamic clinic for more than five years. He is a highly...

Dr. Rasha Mhanna

Dr. Rasha Mhanna is a hard-working, highly motivated dentist who focuses on providing high-quality...

Recovery:

Following treatment, you may experience sore teeth that may be uncomfortable and interrupt your oral hygiene routine. For most patients, this sensitivity subsides within 24 hours.

Note: If sensitivity is unable to be alleviated by prescribed medications, contact your dentist.

Aftercare:

Try to do the following tasks for smooth, and fast Whitening recovery:

- Stop smoking
- You should brush your teeth thrice a day for at least a week
- Maintaining good oral hygiene can give you maximized results
- Rinsing the mouth with an antiseptic mouthwash at least twice a day is essential

Cost of Zoom & Laser Teeth Whitening:

Teeth whitening in Dubai cost can be AED 699 to AED 999, depending on the clinic, the method used, and the reputation of the dental surgeon. A consultation with the professional is a great way to determine the exact cost of the treatment.
